

October, 2017

Temperature

Precipitation

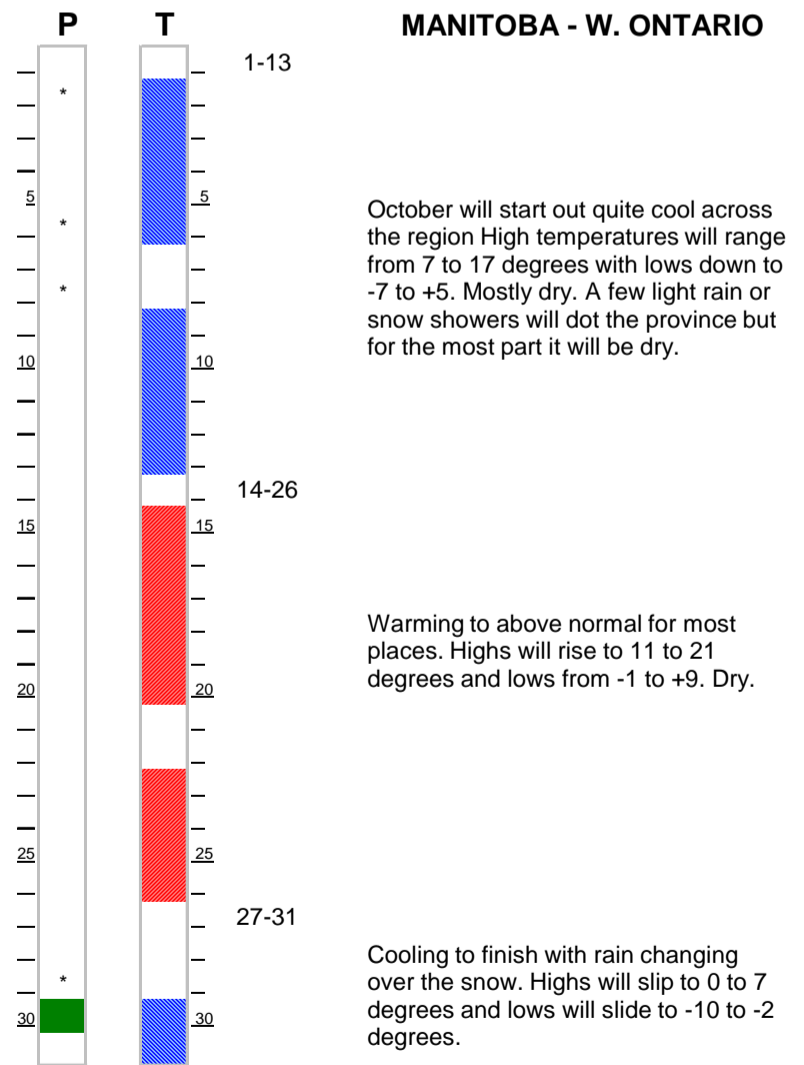

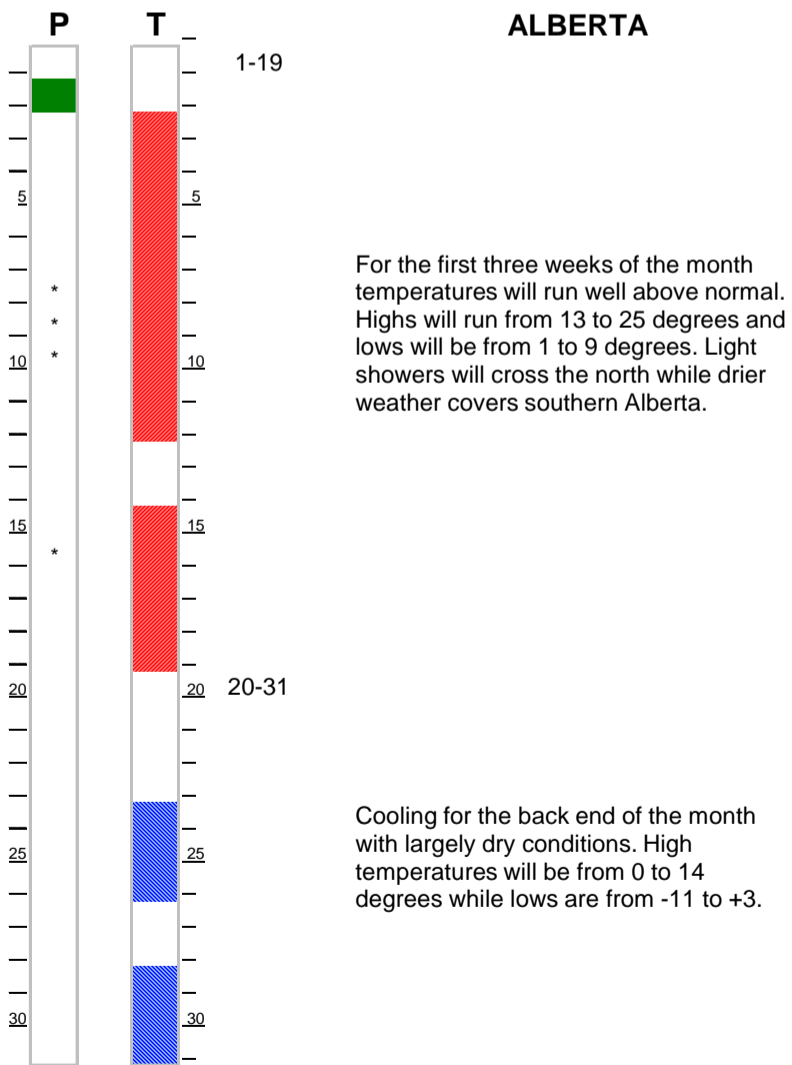

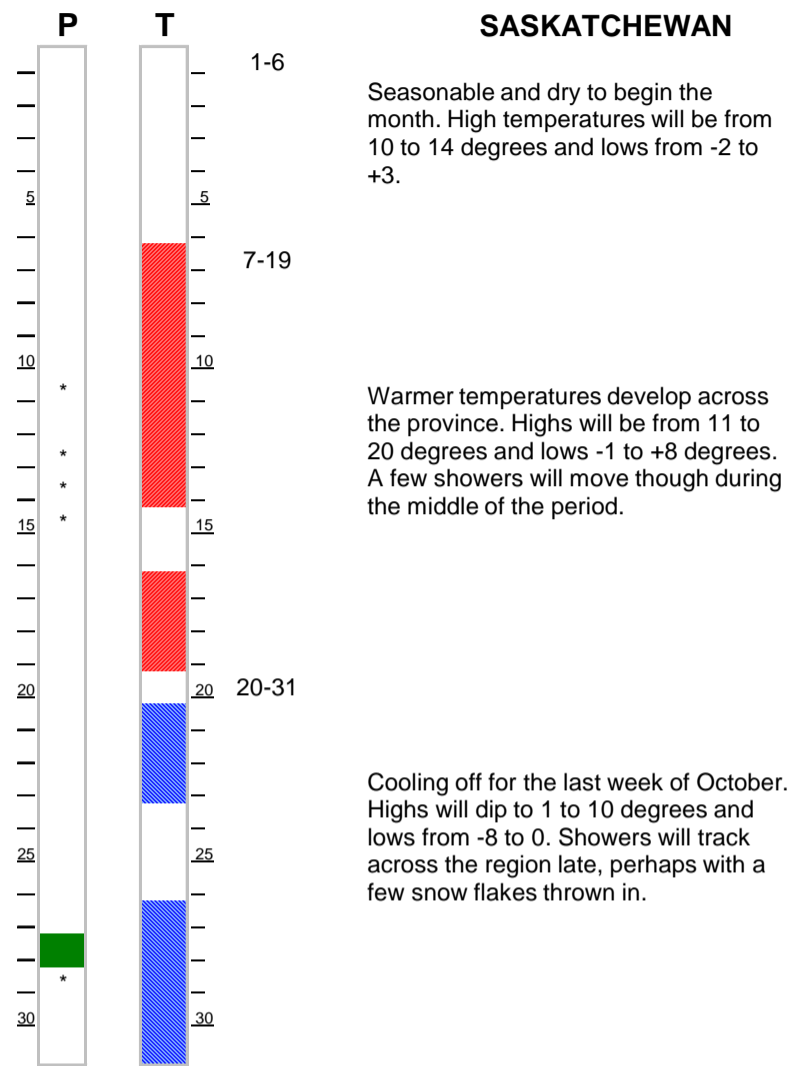

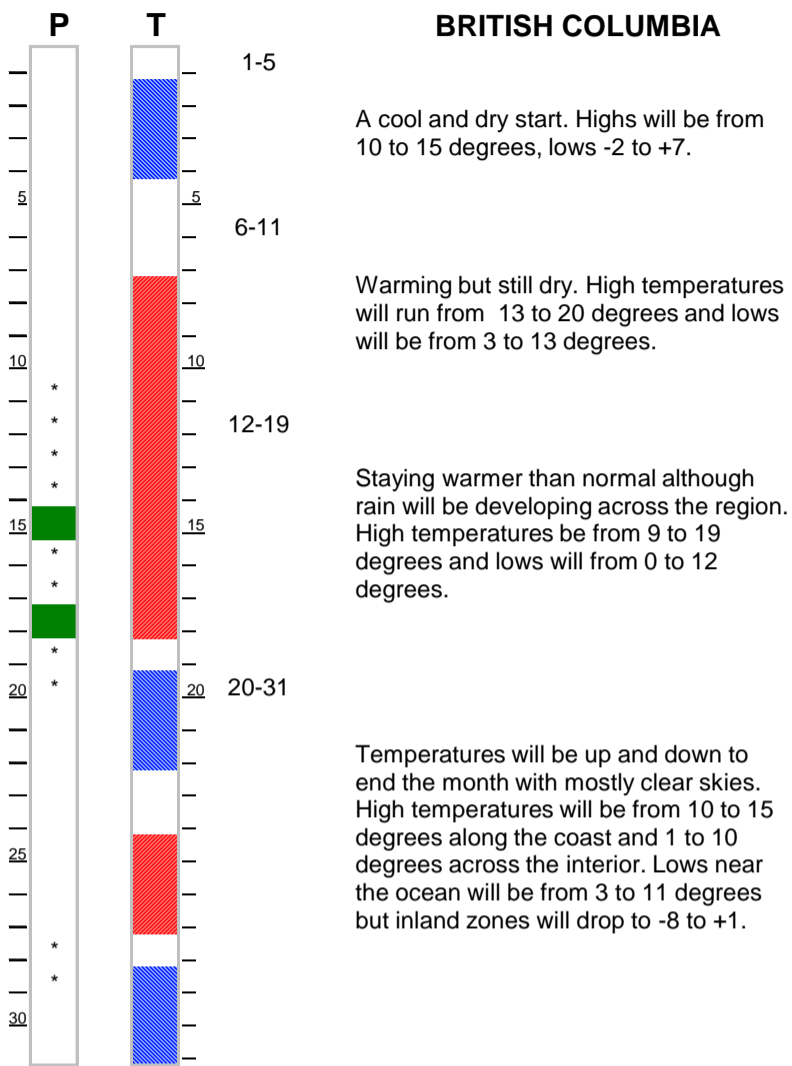

Monthly Climatic Outlook

Western and central areas will be very warm for most of the month but cool down late. Eastern zones will be the opposite – cool early becoming warmer than normal.

High pressure will dominate keeping most areas dry with rain or snow around the periphery.

Climactic Data
for Selected Cities

City	Normal		
	Precip mm	Max Temp °C	Min Temp °C
Vancouver	115	14°	6°
Victoria	74	14°	5°
Kelowna	22	14°	1°
